# THE STORY OF BALI-BALI

## Helping people helping themselves

With our BALI-BALI project, founded in 2013, we support people at the local level.

Our “business partners” long ago became our friends. Our work together focuses on fair partnership and friendly cooperation.

In Bali, nature and culture merge into a greater whole. However, the people are the greatest gift. They make this island a magical place, a place of comfort, a place where you can feel at home.
