# NATEX: 100 % NATÜRLICH. 100 % FUNKTIONELL.

Herkömmliche Naturfasern zeigen ihre Grenzen in Bezug auf Funktionalität auf. NATEX wurde entwickelt, um diese Einschränkungen zu beseitigen. UYN® lässt die Natur für Ihr Wohlbefinden arbeiten. NATEX ist besonders leicht, reduziert das Gewicht des Stoffes um 25 %. Im Vergleich zu Nylon ist die Trocknungszeit 50% schneller. Die Faser ist 100% natürlich, wodurch sie elastischer, geruchsminimierend und antibakteriell ist.

# FUSYON MERINO INNEN MERINOWOLLE – AUSSEN TECHNOLOGIE

Merinowolle ist weltweit als hochwertige Wolle bekannt und zeichnet sich durch geringes Gewicht und ein verführerisch weiches Gefühl auf der Haut aus. UYN optimiert diese hervorragenden Materialeigenschaften durch die Kombination vollkommen natürlicher Fasern der Merinowolle mit dem besonderen FIBRESIST-Garn, das eine hohe Fähigkeit besitzt, Feuchtigkeit zu absorbieren. So entsteht ein neues Material mit angenehm weicher, pillingfreier Oberfläche und ganz neuem Tragekomfort.
