## TASCHEN - BAGS

## Nachhaltigkeit

Durch unsere Produktion in Europa tragen wir schon seit der Gründung zur Verringerung des CO<sub>2</sub>-Ausstoßes bei, da unsere Schuhe während und nach der Produktion nicht um den Globus transportiert werden. Wussten Sie eigentlich, dass alle unsere Leder-Futter schon seit vielen Jahren chromfrei gegerbt werden? Chromfrei gegerbte Leder haben einen sehr hohen Tragekomfort und sind besser geeignet für Menschen mit Allergien.

## Sustainability

Since the establishment of the company we have always contributed to the reduction of carbon dioxide emissions, as our shoes are manufactured in Europe and therefore, not shipped around the globe during and after production. Did you know that all our lining leathers have been chrome-free for years now? Chrome-free tanned products are very comfortable to wear and recommended for people with allergies.

## BALANCED

Die neue Balanced Linie von PETER KAISER unterstützt Sie bei jedem Schritt. Das sportive Design, das weiche Leder, und die angenehme, weite Passform verbinden sich zu Schuhen, die auch auf dem ganz großen Parkett eine gute Figur machen.

PETER KAISER's new Balanced line supports your every step. The sportive design, the soft leather and the comfortable wide fit are combined with shoes, which look good on every occasion.

## SACCHETTO

In der Sacchetto-Machart wird das Futterleder wie ein Säckchen (ital.: sacchetto) zusammengenäht und in das Oberteil des Schuhs eingearbeitet. So umschließt das sehr weiche Leder den Fuß wie ein Handschuh. Diese sehr aufwändige Machart verleiht dem Schuh seine extreme Flexibilität und Leichtigkeit.

The sacchetto technique means that the leather lining is sewn as a small pouch (sacchetto in Italian) and then inserted into the shoe. The soft leather fits the foot like a glove. This elaborated manufacturing technique results in an extremely flexible and light shoe.

## #beautysoft Konzept #beautysoft concept

Unser neues #beautysoft Konzept ist eine Summe von Comfort-Features, um das Laufen und den Wohlfühleffekt in Peter Kaiser Schuhen noch angenehmer zu machen. Es ist ein gesamtheitliches Konzept aus 3 innovativen Funktionen:

- Flexible Spezial-Brandsohle
- Schaumausballung unter der Decksohle
- Superweiche Peter Kaiser Laufsohle

Das Ergebnis ist ein nie da gewesenes Komfort Gefühl auch in eleganteren Schuhen, die in der Anmutung sonst nur bei Sportschuhen gegeben ist. Schönheit und Weichheit in einem Produkt - #beautysoft

Das #beautysoft Konzept finden sie ab der FS 22 Kollektion in allen Gruppen der Peter Kaiser Kollektion und natürlich auch in allen Produkten der Dressy Wall

Our new #beautysoft concept is a result of the merging of comfort features created to enhance the feel-good-effect of Peter Kaiser shoes. The all-round concept has three different functions

- flexible special insole
- soft foam pad placed under the inner sole
- soft, flexible Peter Kaiser shoe sole

This results in a totally new comfort even in the most elegant shoes, the kind of comfort that until now was known only from sports shoes.

Beauty and softness in one product - #beautysoft

You will find the #beautysoft concept from SS 22 on in every Peter Kaiser's article group and in all Dressy Wall products.

Starting with the FS 20 collection, you will find the #beautysoft concept in almost all groups of the Peter Kaiser collection and of course also in all products of the Dressy Wall
