

Light Hiking

MOVING FAST IN
THE HEAT

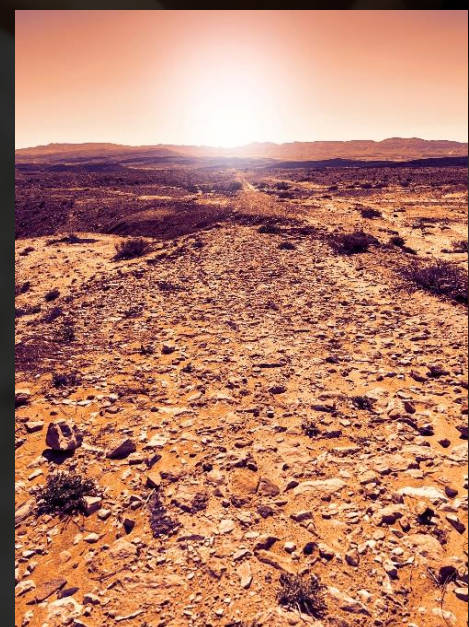

About the collection

Lightweight, breathable protection. Everything in the light hiking line is built to move fast and perform optimally in hot conditions, from extremely arid to wet and humid. The entire range of footwear, apparel and equipment is engineered to protect from sun (UPF) and extreme weather, focusing on weight savings to ensure you can enjoy the outdoors. **We'll become unstoppable with the optimal gear to protect us from the burning sun.**

Light Hiking | The Moodboard

Footwear

Prelight Pro Vent

ENGINEERED TO KEEP YOU COOL IN THE HEAT

The Prelight Pro Vent is ideal for fast hikes in hot and humid conditions, designed for air to move freely around and under your foot to keep you cool.

Texschill Honeycomb insole is cool to the touch and provides airflow under your foot.

Texsflow technology creates optimal airflow and breathability

Crossvent airflow channels balance the climate inside the shoe

Lug pattern provides superior traction

Engineered in Germany,
Proven in the Wild.
